SAND, FERTILIZER, CEMENT, FLY ASH, MINERALS & MORE

If you need colossal on-site storage for dry, bulk solids, look no further than Meridian's Bolt Together Silos (BTS).

Meridian's Bolt Together Silos are heavy duty, and engineered to store product up to 115lbs/cubic foot. With a high quality powder coating, these bins are ideal for holding corrosive materials such as fertilizer, or abrasive material such as sand. With fewer, larger pieces the Meridian BTS series are easier to assemble in the field. All bolts are on the exterior of the silo with a superior connection assembly for ease of assembly and durability.

These silos are custom designed to your site- Drive-Thrus, Staircases, and other options are available to be custom tailored to your operation.

FEATURES

- Engineer Designed for Sand up to 115 lbs./cu ft
- Various sizes up to 67,990 cubic feet
