

MERIDIAN[®]

405 SLD First in Innovation

- 24' CONVEYOR WITH MAXIMUM DISCHARGE OF 15'
- UNMATCHED UNLOAD CAPACITY UP TO 2500#/MIN
- STEEP ANGLE HOPPER DESIGN
- LOAD SENSING HYDRAULIC SYSTEM
- 3-IN-1 CONVEYOR

24' CONVEYOR

Industry leading 15' discharge height allows for easy fill of most bulk fill and box hopper planters or seed drills.

UNMATCHED UNLOAD CAPACITY

405 SLD comes standard with 8" x 24' conveyor with Meridian's patented cleated belt design that unloads up to 2500#/min.

STEEP ANGLE HOPPER DESIGN

Allows for 100% clean out without the use of vibrators or agitators - no shovels needed.

LOAD SENSING HYDRAULIC SYSTEM

Each function has a dedicated Hydraulic channel. This creates an extremely smooth operation for seed tender functions with manual override.

3-IN-1 CONVEYOR

Innovative self-loading feature allows the producer to use conveyor independently for other farm needs along with filling the seed tender.
