### **NEW SUPER SINGLE ARCHWALL**

Not all buildings are created equal

The air plenum has two thermally insulated air chambers which allows to create different independent storage environment in the storage bins. Humidity and temperature wise.

The square footage of the air plenum can be adjusted to fit the size of the storage bins.

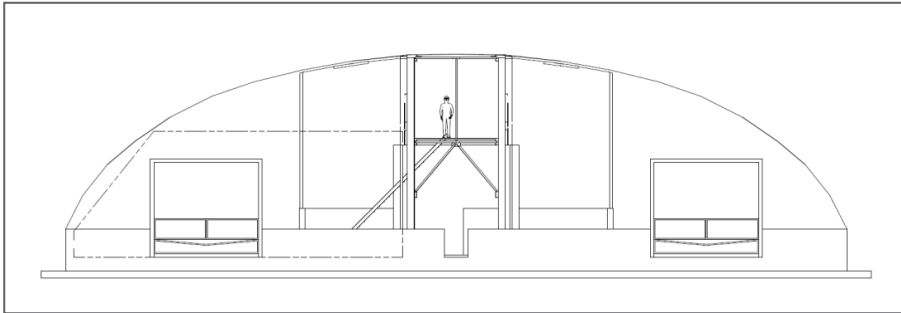

## MERIDIAN ARCHWALL BUILDINGS SUPER SINGLE

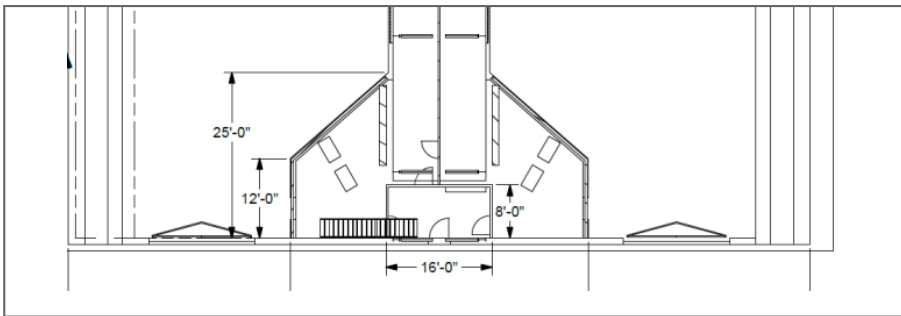

The NEW multi-purpose tower serves four main functions:

1. Main separation between two storage bins and retaining wall
2. Catwalk to allow inspection of vegetable piles
3. 2 separate air plenum
4. Fan house(s)
