GRAIN RINGS

MERIDIAN

TEMPORARY GRAIN STORAGE.

A galvanized grain storage ring is the lowest cost per bushel option for intermediate storage on the market today. Backed by a manufacturer who's been serving the Ag sector for over 40 years. Rings are self-supporting, designed to withstand large volumes of various crops. Established during bumper-crop years, intermediate grain storage practice combats the challenge of producing more crop than storage available. Being able to safely store grain outdoors for temporary purposes is the answer to your modern, contemporary operating needs. Keep harvesting even when bins and elevators are full with the Grain Ring.

HIGHLIGHTS

- ▶ Available in 40' - 105' diameters (5,373 bu. to 115,678 bu.)
- ▶ Wall heights in 2' increments (up to 8' max.)
- ▶ Precision manufactured product, ensures perfect fit every time (ISO Certified Manufacturer)
- ▶ Models include all materials required, even tarp hooks (tarp sold separately)
- ▶ 100% steel construction
- ▶ Protect crops from weather and pests
- ▶ Options and accessories available (auger ports, Aeration transitions)

Convenience and Affordability

Don't let full bins stop you from enjoying a record yield; choose a Meridian grain ring for your immediate storage needs.
