

MERIDIAN FUEL TANKS

Capacity. Efficiency. Safety.

Refuel at your convenience and reduce downtime with Meridian double wall and single wall Fuel Tanks.

Meridian has set the standard in excellence for storage and handling for decades. Meridian has continuously incorporated the latest technological innovations to meet our customers' ever-changing needs. Meticulous attention to quality and detail reflect the attitude of an enthusiastic and skilled production team, lending confidence to each Meridian customer of a superior and dependable product. Meridian's best references are the thousands of farmers and commercial customers who have experienced the quality and value of the Meridian family of products.

Meridian's UL approved fuel tanks feature the same design, strength and quality standards that all Meridian products have become known for. These single or double walled steel 100% containment tanks provide environmentally safe storage, prevent costly leaks and are ideal for a variety of fuel types.

Meridian prides itself in providing the most economical and efficient fuel tanks to suit your specific needs. Our fuel tanks are available in numerous sizes and can be ordered complete with state of the art dispensing equipment. Our fuel tanks meet and exceed safety and environmental standards, making them the preferred choice in the industry.

Meridian's fuel tanks provide customers with premier storage solutions and customer service that is unsurpassed in the industry. Meridian has a large dealer network and a professional sales team available to help you pick the right fuel tank for your operation.

IDEAL STORAGE.

Meridian's UL double wall - 100% containment fuel storage solutions offer excellence in storage versatility. Unlike single wall tanks, this double wall containment system features an "all openings on top design" which eliminates the need for a containment dike. These 4,000 - 20,000 gallon tanks are built with heavy gauge steel construction.

Quality and Workmanship - Meridian is committed to the best double wall fuel tank service and warranty in the industry with a 1 year limited paint warranty.

QUICK FACTS

Features and benefits of all fuel tanks:

- Meets environmental compliance regulations
- Built to UL 142 standards
- Can reduce farm insurance cost
- Cost savings by taking larger volumes of fuel
- Return on investment can be as quick as 2 years
- Larger capacity insures fuel when you need it the most
- Ground level filling
- High volume pumps & meters
- Quick & efficient refueling turn around times
- Hose retractor and hose reel option eliminates tangled and damaged hoses
- Tank level site gauges allow you at a glance to know your tank level
- Single or split tanks (some models)
- Split tanks allow for storage of 2 different fuels
- Long lasting powder coat paint finish (most models)
- Wide selection of tank sizes to fit anyone's needs

Frequently Asked Questions:

Q: What size of tanks do you offer?	A: Ranges from 500 - 30,000 gallons.
Q: Are you tanks certified?	A: Yes, we build tanks to UL 142 standards.
Q: Do you build SW & DW tanks?	A: We do, however we recommend DW tanks.
Q: Why double wall tanks?	A: They meet environmental compliance regulations
Q: What size pumps do you offer?	A: They range from 20 GPM - 40 GPM
Q: How do you fill them?	A: Your best choice would be our ground level bottom fill system.
Q: What do you use for paint?	A: Most of our tanks have a baked on powder-coat finish
Q: Where can I buy a tank?	A: We have a large dealer network and likely one near you
Q: What do they cost?	A: Depends on the size and options, but we can get you a quote with an exact price

Meridian is committed to manufacturing the highest quality products - with a full range of storage and handling solutions designed for any size operation. Our vast network of dealers and customers across North America are ready to share with you their Meridian experience and how our family of products help to save time and money. The Meridian team of 1,000-plus trained and dedicated employees delivers a superior product and is constantly looking at ways of improving our product lineup so we can better serve our customers.

“ During the fall we can't afford to wait for fuel to be delivered. Having plenty of fuel on hand not only saves us money but it keeps us in the field. My Meridian fuel tank not only made it possible to receive and store bulk fuel but will facilitate a **quick return on my investment.** ”
